

What is claimed is:

1. A headwear, comprising:
a head receiving part made of a multiple fabric; and
5 a sweatband peripherally attached to an inner side of the head receiving part along
a lower edge thereof.
2. The headwear as claimed in claim 1, wherein the head receiving part is a crown
including a plurality of panels that are made of the multiple fabric and are connected to one
10 another to form the crown.
3. The headwear as claimed in claim 1, wherein the head receiving part is a
headband peripherally receiving the head of a wearer.
- 15 4. The headwear as claimed in claim 1, wherein the multiple fabric is a warp double
fabric or warp-weft double fabric.
5. The headwear as claimed in claim 4, wherein the double fabric includes first
warps, second warps and wefts, in which the first and second warps form a double-layered
20 structure and the wefts pass by the first and second warps in zigzag to form loops.
6. The headwear as claimed in claim 5, wherein the wefts are stretchable yarns.
7. The headwear as claimed in claim 5, wherein the first warps and the second warps
25 have at least one common property.
8. The headwear as claimed in claim 5, wherein the second warps have a peculiar
property in which the first warps are lacking.
9. The headwear as claimed in claim 1, wherein the sweatband includes an elastic
30 band.

10. The headwear as claimed in claim 1, wherein the sweatband includes a band core and a stretchable fabric for covering the band core against the head of a wearer.
11. The headwear as claimed in claim 10, wherein the stretchable fabric is made of the
5 multiple fabric.
12. The headwear as claimed in claim 10, wherein the stretchable fabric includes stretchable yarns which are uniaxially stretchable.
- 10 13. The headwear as claimed in claim 10, wherein the band core is composed of at least one selected from a group comprising a woven fabric, a knitted fabric, a non-woven fabric and resin foam.
14. The headwear as claimed in claim 10, wherein the band core comprises at least
15 one selected from a group comprising an elastic band and polyurethane foam.
15. The headwear cap as claimed in claim 14, wherein the band core includes a polyurethane foam layer and an elastic band layer.
- 20 16. The headwear cap as claimed in claim 10, wherein the band core and the stretchable fabric are stitched with an elastic thread.
17. The headwear as claimed in claim 1, wherein lower ends of the sweatband and the head receiving part are wholly pressed and stitched together, along the lower edge thereof.
25
18. The headwear as claimed in claim 17, wherein the lower ends of the sweatband and the head receiving part are stitched with a stretchable yarn.
19. The headwear as claimed in claim 1, further comprising a shape tape attached
30 adjacent to a lower end of the head receiving part, thereby maintaining the shape of the headwear.

20. The headwear as claimed in claim 19, wherein the shape tape is stitched along the lower end of the head receiving part.
